

2025 ANNUAL REPORT

Our vision for street people is a community where every family has a safe and secure home. Our work is anchored in providing equal opportunities for living and helping people achieve their dreams.

EXECUTIVE DIRECTOR FOREWORD

As we close another meaningful year at Ka-Agapay Philippines Inc., I am filled with gratitude, pride, and renewed hope. The year 2025 marked **a period of growth, learning, and deeper commitment to the community** we continue to build together, whose strength and determination inspire our work every day.

At Ka-Agapay, our mission remains clear: **to help street children and their families build pathways toward opportunity, dignity, and the fullness of life.** This year, we strengthened that commitment by placing children at the center of everything we do, ensuring that our programs are intentional, data-driven, and grounded in compassion. As climate-related events and social realities continue to shape communities across the Philippines, our initiatives focus on strengthening readiness, adaptability, and long-term well-being for communities.

In 2025, we deepened our work in San Pedro, Laguna, supporting 42 children through holistic programs that nurtured education, health, nutrition, preparedness, and values formation. Through Ka-Agapay sa Buhay and Ka-Agapay sa Edukasyon, children received consistent support from food assistance and health services to school supplies, continuous learning sessions, and exposure opportunities that expanded their perspectives. **More than the numbers, what stood out were the aspirations that took root, with children confidently envisioning brighter futures and recognizing their own potential.**

Collaboration remained at the heart of our progress. We strengthened partnerships with local government units, non-government organizations, international partners, corporations, and individual donors. These collaborations enabled us to mobilize resources effectively, broaden our reach, and enhance transparency through strengthened data-driven monitoring and evaluation. Our growing engagement on social media further reflects the trust and shared commitment of a community united by a common purpose.

There were also areas that called for deeper preparation, particularly in further developing programs for elders and persons with disabilities. These experiences reinforced the value of thoughtful planning and sustainable program design, **guiding us toward more inclusive and impactful initiatives in the years ahead.**

As we celebrated our fifth anniversary through *“Half a Decade with Ka-Agapay”*, we were reminded that meaningful change is built through collective effort. Every milestone achieved this year reflects the generosity, dedication, and shared vision of our partners, donors, volunteers, and community members.

Looking ahead, we remain steadfast in our vision of a street-family-free Philippines, one where families are supported, communities are strengthened, and children are empowered to thrive. Guided by hope, strengthened by partnerships, and driven by compassion and evidence-based action, Ka-Agapay will continue to grow, adapt, and serve, ensuring that every child we reach is given the opportunity to learn, flourish, and live a life of dignity and purpose.

On behalf of the entire Ka-Agapay Philippines Inc. community, I extend my deepest gratitude to everyone who has journeyed with us this year. **Together, we are transforming lives, one child, one family, and one community at a time.**

WE ARE KA-AGAPAY

At Ka-Agapay Philippines Inc., our mission is clear: **to help the most vulnerable break free from poverty and experience the fullness of life.** As a community-driven organization, we are dedicated to transforming the lives of street children and their families. We do what we do because every child deserves dignity, opportunity, and the fullness of life, free from poverty and vulnerability. We are advocates for systemic change, championing children's rights, resilience, and empowerment, while addressing urgent challenges such as climate-driven disasters and social exclusion.

Guided by compassion and intent, we carry out our mission through data-based programs, strong partnerships with government, NGOs, schools, and the private sector, and by mobilizing resources to create long-term, large-scale impact. **Our work is anchored in hope, collaboration, and the belief that together, we can build a street-family-free Philippines.**

OUR PATH FORWARD

Our path forward is anchored in the vision of a street-family-free Philippines. This is a commitment we uphold for the country's most vulnerable children, and we honor this promise through the following areas of urgent action:

Strengthening our commitment to street children.

Placing street children at the center of our mission, we continue to refocus our efforts to lessen their extreme vulnerability, design programs that truly respond to their needs, provide strong leadership, and direct resources where they matter most. With typhoons, floods, and other climate-related disasters becoming more frequent in the Philippines, their impact on children's well-being has become a major driver of our large-scale initiatives. Our work equips both children and their families to better cope and recover.

Channeling resources for lasting impact.

We remain intent-driven and impact-focused, ensuring that every decision and action maximizes benefits for street children. Guided by data and evidence, we prioritize key areas of work that measurably improve children's lives. At the same time, we strengthen long-term foundations such as household stability and community resilience, so that the positive changes we create can be sustained across generations.

Collaborating and advocating for broader impact

By amplifying the voices of street families, we push for systemic change at both national and local levels. We work hand in hand with partners to achieve more for children than we could accomplish alone. Moving forward, we will continue to engage the private sector for funding and networks that help scale our initiatives, strengthen our credibility, and create lasting positive change in the communities we serve.

OUR PATH FORWARD

Advancing data-driven growth and evaluation.

We are committed to building stronger capacity for data-driven impact reporting and program evaluation. This enables us to track the success of our initiatives, identify areas for improvement, and gain deeper insights into the needs of our communities. At the same time, it ensures transparency and accountability to donors, partners, and stakeholders; building trust and demonstrating effectiveness. Through this, we secure continuous improvement and long-term success in fulfilling our mission.

We have aligned our programs with the Sustainable Development Goals, ensuring that each initiative empowers children to learn, grow, and thrive while contributing to the broader global agenda. The impact highlighted in this report affirms that Ka-Agapay is moving in the right direction. As 2025 ends, we celebrate our distinct approach; intent-driven, community-empowered, and focused on long-term, large-scale impact for street children, and remain committed to transforming lives as we expand our reach.

OUR WORK

2025 has been a year of growth for Ka-Agapay Philippines Inc., a year filled with learning and diverse experiences.

This year, we focused on cultivating and strengthening our relationships with both internal and external partners. We established various partnerships with different companies and successfully built long-term relationships with them. At the same time, we began strengthening our partner community, with a particular focus on San Pedro, Laguna.

Our goal was to build a community founded on harmonious relationships while encouraging growth in social responsibility. **Throughout the year, we developed programs for children that align with our mission, enhancing their awareness and teaching values that may not always be learned in school.** We also conducted separate meetings with parents to ensure that we shared the same goals and direction.

Through these efforts, we were able to foster a genuine sense of community, one where members learn the importance of giving back in their own meaningful ways. This year, we supported 42 children from San Pedro, Laguna, all of whom are currently in Grade 2. In addition, we extended support to our partner beneficiaries from Volunteer PWD Events by providing financial assistance during the Christmas season.

As we move forward, we remain committed to working even harder in the coming year, reaching more people, spreading positivity, and creating programs that will make a meaningful and lasting impact on their lives.

2025 PROGRESS REPORT

KA-AGAPAY SA BUHAY Street-children

Ka-Agapay, through its Ka-Agapay sa Buhay program, continued its commitment to supporting the children's community of San Pedro, Laguna, throughout the year. The program focuses on addressing the basic needs of children by providing a consistent monthly supply of food and essential items that support their schooling and daily activities. In partnership with the San Pedro, Laguna Local Government Unit (LGU), Ka-Agapay also prioritized the health and well-being of the beneficiaries by conducting one medical mission during the year. It allowed the organization to monitor the children's medical conditions, provide basic healthcare services, and ensure early intervention when needed. Through these initiatives, Ka-Agapay sa Buhay has strengthened its holistic support for children, promoting not only their physical health but also their overall growth and development.

2025 PROGRESS REPORT

Elders

This year, we were not able to implement a program for the elderly, as we focused on laying the groundwork for building an elder community. While we were unable to fully accomplish this goal within the year, we continued to work diligently on developing a program designed to create a meaningful and long-term impact on their lives. We have been exploring various approaches to achieve our vision of establishing a sustainable community of elders whom we can support over the long term.

Person with disabilities

We were unable to conduct any programs for our community of persons with disabilities this year; however, our commitment to supporting them remained steadfast. During the 9th Year Thanksgiving Party for Children with Cerebral Palsy, organized by the CP Warrior Families, we focused on addressing the immediate and essential needs of the children by providing basic supplies such as diapers and milk. This simple yet meaningful gesture served as a reminder that extending care, compassion and practical assistance continues to uphold the program's mission of promoting support and inclusion for persons with disabilities.

2025 PROGRESS REPORT

KA-AGAPAY SA EDUKASYON Education

In 2025, we continued our initiative of providing learning resources and structured lesson plans that teach children values and social awareness. These lessons helped them understand how to respond appropriately to real-life situations in the Philippines, such as weather preparedness, proper hygiene, and basic financial awareness, emphasizing the importance of valuing money even at a young age.

We were able to bring the children to the office of one of our partner companies. Through this experience, they learned that education can open doors and that they, too, can envision themselves in professional roles in the future. This exposure broadened their perspectives and showed them that they are not confined by the limitations society may place on them.

Many of the children began to dream more. Some expressed aspirations of becoming accountants, while others shared their desire to work for the same company someday. From these dreams, a growing sense of passion and motivation has taken root. With their eyes opened to new possibilities, we believe these children will continue striving to improve their lives, overcome challenges, and become part of positive change in their communities.

2025 PROGRESS REPORT

Waste Segregation

Teaching the children of the Ka-Agapay community proper waste segregation is an important step toward building environmental awareness and responsibility at a young age. Through this education, children learn how to properly separate biodegradable, non-biodegradable and recyclable waste, helping them understand the impact of their daily actions on their surroundings and health. This initiative encourages discipline, cleanliness and respect for the environment while promoting sustainable habits they can practice at home and in school. The expected outcome of this education is a cleaner and safer community, reduced waste pollution and the development of environmentally responsible children who can influence their families and peers to practice proper waste management, contributing to a healthier and more sustainable future for the Ka-Agapay community.

Disaster Risk and Reduction

For the children of the Ka-Agapay Community, learning about Disaster Risk Reduction is especially important because the Philippines is experiencing real and repeated natural calamities that affect families and schools every year. In 2025 alone, strong typhoons like Super Typhoon Fung-wong (Uwan) and Typhoon Kalmaegi (Tino) caused widespread flooding, displacement, and damage to homes and classrooms across many regions of the country, affecting millions of people, including children. Large earthquakes — such as the magnitude-6.9 quake in northern Cebu and the magnitude-7.4 and 6.8 quakes in Davao Oriental — shook communities, triggered evacuations, and damaged houses, roads, and schools. By understanding what to do before, during, and after disasters like typhoons, flooding, and earthquakes, Ka-Agapay kids can help protect themselves and their loved ones, act quickly and confidently when emergencies happen, and contribute to a safer, more resilient community.

2025 PROGRESS REPORT

CELEBRATE WITH KA-AGAPAY Individual Celebrants

Three (3) individuals (Saidee, Ninis, and Kim) celebrated their birthdays with Ka-agapay. Together with the celebrants and their loved ones, activities that are aligned with Ka-agapay's core mission were conducted with the community.

Corporations

We've worked hand in hand with the London Stock Exchange Group (LSEG) Foundation to deliver programs that nurtured the health, values, and resilience of our children. Through this partnership, the children were guided toward healthier lifestyles, encouraged to embrace sustainability, and given opportunities to strengthen both their physical and emotional well-being. The collaboration also opened doors for them to experience interactive learning in new environments, including the LSEG Manila office, where family values such as respect, empathy, responsibility, and love were reinforced. Beyond wellness and values, the partnership empowered children with practical life skills in disaster preparedness, equipping them to face challenges with confidence and resilience.

Each initiative was designed not only to educate but also to create safe, nurturing spaces where children could grow holistically; physically, mentally, emotionally, and socially. LSEG plays a pivotal role in ensuring that lessons become lifelong skills and that communities are strengthened through shared commitment to sustainability, education, and empowerment.

2025 PROGRESS REPORT

Non-Government Organizations

Partnerships among non-government organizations are vital in creating stronger and more meaningful programs for children, especially in environmental protection. This year, the collaboration between Ka-Agapay Philippines and Communities Organized for Resource Allocation (CORA), a non-profit organization dedicated to creating sustainable programs to help solve global issues centered on hunger, poverty, inequality, and climate change, shows how NGOs can work together to expose kids and their families to the importance of coastal clean-ups and caring for our seas. With the support of CORA and other participating organizations, children and their guardians experienced hands-on activities that helped them understand marine pollution and environmental responsibility beyond the classroom. This partnership not only combined resources and expertise but also encouraged families to practice teamwork and shared responsibility in protecting nature. Through these collective efforts, both kids and their guardians are inspired to become environmentally conscious citizens who will help protect the Philippines' rich marine life for future generations.

2025 PROGRESS REPORT

OUR IMPACT REPORT

Education

We have made significant contributions in advancing education and community resilience through our initiatives this year. We provided a complete set of school supplies to our children, ensuring they were equipped to actively participate in their classes without financial burden. School kits containing inner wears, tumblers, and lunch boxes were distributed to promote hygiene, nutrition, and comfort in daily school life. Quarterly distributions of nutritious school snacks supported their health and concentration, while emergency go bags were provided to prepare them and their families for unforeseen circumstances and disasters.

Beyond material support, **we emphasized continuous learning through lesson discussions that extended beyond the classroom.** These sessions focused on the real-life application of academic lessons, helping students connect their studies to everyday situations. **We also promoted environmental responsibility by teaching proper waste segregation practices, and instilled resilience through disaster response training, equipping our children with knowledge and strategies to act safely and effectively during emergencies.**

Over the year,

- 42 students received a complete set of school supplies for one academic year.
- 42 school kits (inner wears, tumblers, lunch boxes) were distributed.
- Quarterly snack packs provided to all beneficiaries, totaling 200 snack distributions across the year.
- 42 emergency go bags were distributed to ensure preparedness during disasters.
- 12 continuous learning sessions conducted, covering real-life lesson applications, waste segregation, and disaster response.

Through these efforts, we have improved academic readiness, enhanced life skills, and fostered holistic development among our children.

2025 PROGRESS REPORT

Health and Nutrition

We also prioritized the health and nutrition of our children through sustained initiatives that address both immediate needs and long-term well-being. **Over the past year, we partnered with the Local Government of San Pedro in conducting its annual medical mission, providing essential healthcare services and consultations to our community.** Hygiene kits were distributed to promote cleanliness and prevent illness and to further ease the burden of food insecurity, quarterly grocery distributions ensured that families had access to nutritious meals throughout the year.

These efforts not only improved the physical health of beneficiaries but also reinforced our commitment to holistic community support. **By combining medical assistance, preventive care, and nutritional aid, we have contributed to healthier, more resilient families capable of thriving in their daily lives.**

Over the year,

- We have conducted our annual medical mission, serving over 100 individuals with free consultations and basic treatments.
- 84 hygiene kits were distributed to promote personal cleanliness and reduce the risk of communicable diseases.
- 42 bottles of vitamins provided to children and adults, supporting immunity and overall wellness.
- Quarterly grocery packs were distributed to 42 families, totaling 200 grocery packs across the year.

Through these health and nutrition programs, we have strengthened community resilience, reduced health risks, and ensured that families are better equipped to lead healthier lives.

2025 PROGRESS REPORT

Economic Development

We have advanced our mission of economic development by addressing both immediate needs and long-term community empowerment. **Over the past year, we have provided groceries and meals to families, ensuring that basic sustenance was met and alleviating the burden of food insecurity.** Beyond direct provision, continuous lesson discussions were conducted on health-related topics and waste segregation, equipping our children and their guardians with practical knowledge to improve their well-being and promote sustainable practices.

Our economic development initiatives were further strengthened through generous support from donors and partners. We have received Php 410,000 in monetary donations and Php 50,000 worth of in-kind contributions, enabling the expansion of our programs. Strategic partnerships were also established with two international organizations, one non-profit organization, one local government unit (LGU), and eight individuals, reflecting a strong collaborative effort to sustain and scale impact.

Through our programs,

- Groceries and meals provided to over 42 families, addressing immediate nutritional and economic needs.
- Continuous lesson discussions held on health-related topics and waste segregation, with 10 sessions conducted across communities.
- Php 410,000 monetary donations received, alongside Php 50,000 worth of in-kind donations, directly supporting program implementation.
- Partnerships formed with 2 international organizations, 1 non-profit organization, 1 LGU, and 8 individual donors, strengthening resource mobilization and community reach.

Through these initiatives, we have not only supported our community with essential resources but also empowered communities with knowledge and partnerships that foster resilience, sustainability, and shared responsibility for economic growth.

2025 PROGRESS REPORT

CONTRIBUTION TO THE SUSTAINABLE DEVELOPMENT GOALS (SDGs)

We have strategically revamped our programs to align with the United Nations Sustainable Development Goals (SDGs), ensuring that every initiative contributes to building healthier, more resilient, and sustainable communities. Across 13 programs implemented this year, we have made significant strides in advancing multiple SDGs:

- Through our health and nutrition initiatives, we have directly supported **SDG 3: Good Health and Well-Being** by conducting medical missions, distributing hygiene kits, vitamins, and groceries, and promoting preventive care.
- In education, the provision of school supplies, kits, snacks, and continuous lesson discussions reinforced **SDG 4: Quality Education**, ensuring that our children are equipped to learn and thrive both inside and outside the classroom.
- Environmental responsibility was emphasized through waste segregation lessons and disaster preparedness training, contributing to **SDG 12: Responsible Consumption and Production** and **SDG 13: Climate Action**. These efforts instilled sustainable practices among beneficiaries while preparing our community to respond effectively to climate-related challenges.
- We have strengthened **SDG 17: Partnerships for the Goals** by mobilizing resources and forging collaborations with international organizations, non-profits, local government units, and individual donors. These partnerships amplified the reach and impact of our programs, ensuring that collective action drives long-term change.

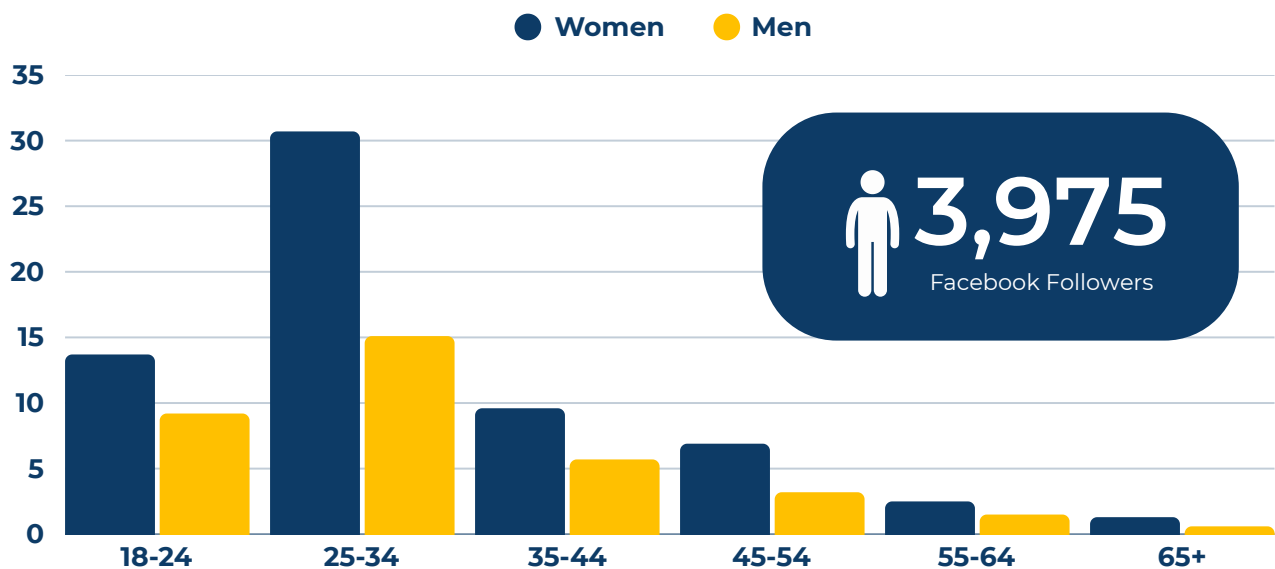

Through these aligned efforts, we have demonstrated our commitment to advancing the SDGs, ensuring that every program contributes to a healthier, more educated, sustainable, and collaborative future for street people..

2025 PROGRESS REPORT

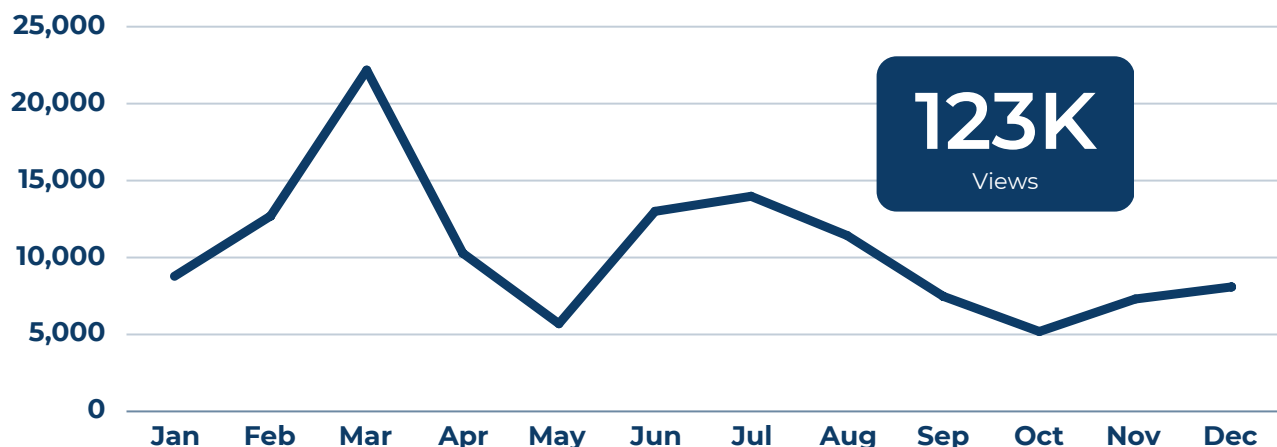

CAMPAIGN INITIATIVES

This year, we proudly celebrated its fifth anniversary through an event titled “Half a Decade with Ka-Agapay.” The event brought together all our valued partners and became one of the highlights of the year. It provided an opportunity to showcase the programs we have implemented over the past five years and to express our sincere gratitude to everyone who has supported Ka-Agapay from its beginnings up to the present.

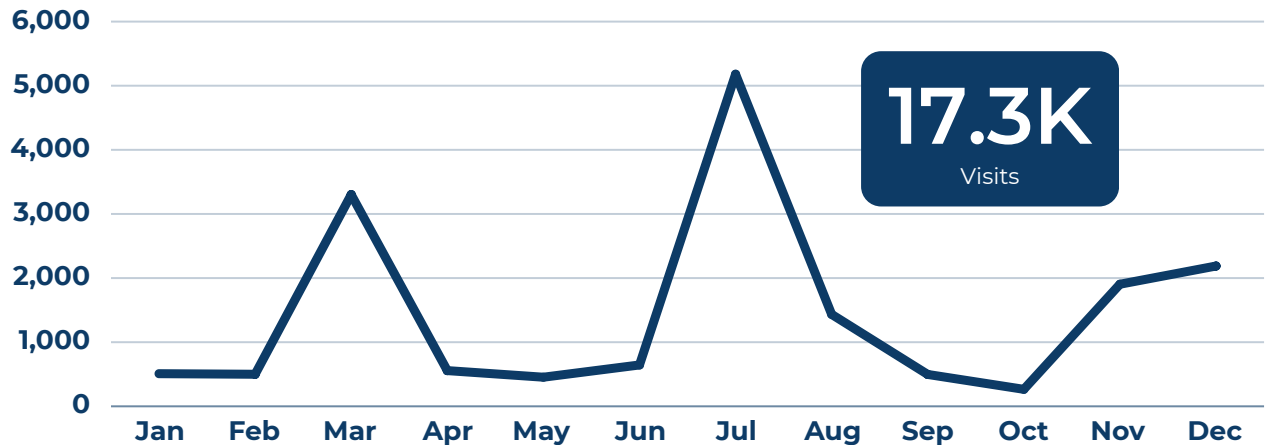

In terms of social media engagement, 2025 has also been a year of significant growth. Our Facebook following increased from 2,215 followers last year to 3,975 followers this year, with a total of 1,761 new followers added. Of these followers, 64.8% are women and 35.2% are men, with the majority belonging to the 25–34 age bracket.

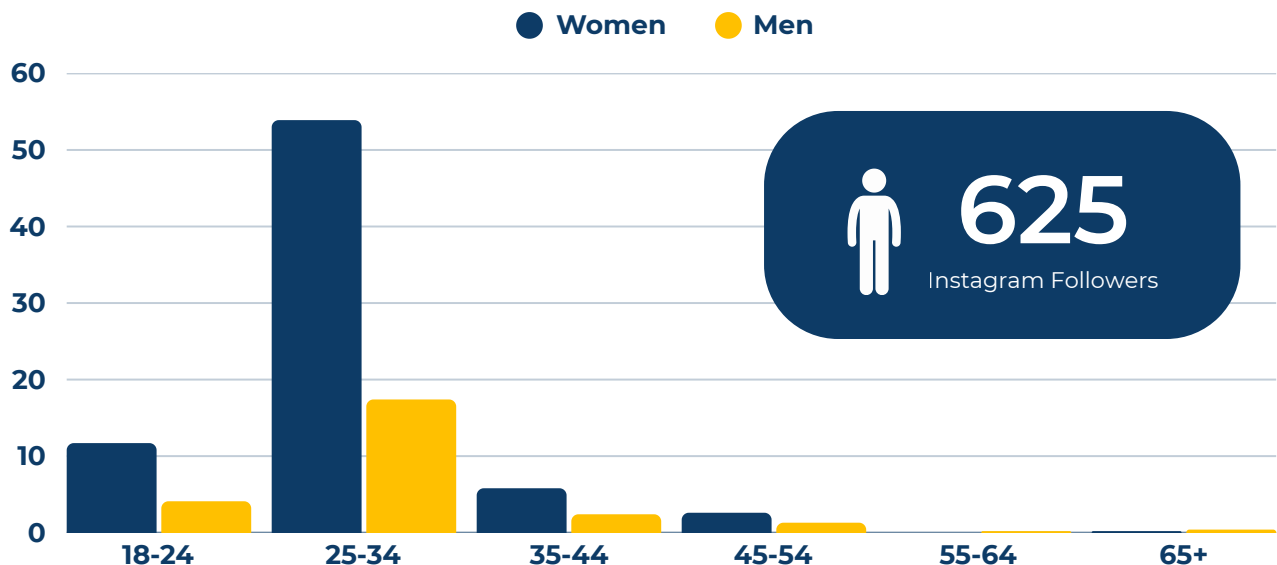

Our Facebook page also saw a substantial increase in reach and engagement. We recorded 123,000 Facebook views this year, compared to 91,200 views last year. Additionally, we had 17,300 page visits, reflecting a 55.9% increase from the previous year. These milestones can be attributed to our consistent posting of content and program updates, as well as our growing partnerships with various organizations, corporations, and communities.

2025 PROGRESS REPORT

On the other hand, our Instagram account also experienced notable growth. Our followers increased from 408 last year to 625 this year, representing a 53% increase. Similar to our Facebook page, the majority of our Instagram followers are female, comprising 73.6%, while 26.4% are male. The age distribution likewise mirrors that of our Facebook audience, with most followers falling within the same age range.

In terms of views and reach, our Instagram performance also showed significant improvement. We garnered 38,100 views this year, up from 26,100 views last year. Additionally, we recorded 2,000 Instagram profile visits, representing a 37.9% increase compared to the previous year.

This positive growth can be attributed to our consistent posting of engaging content, particularly reels and stories that keep our followers updated on our programs and activities. These achievements mark an important milestone for Ka-Agapay Philippines Inc., and with the continued support of our community and partners, we look forward to sustaining this momentum and further expanding our reach.

2025 PROGRESS REPORT

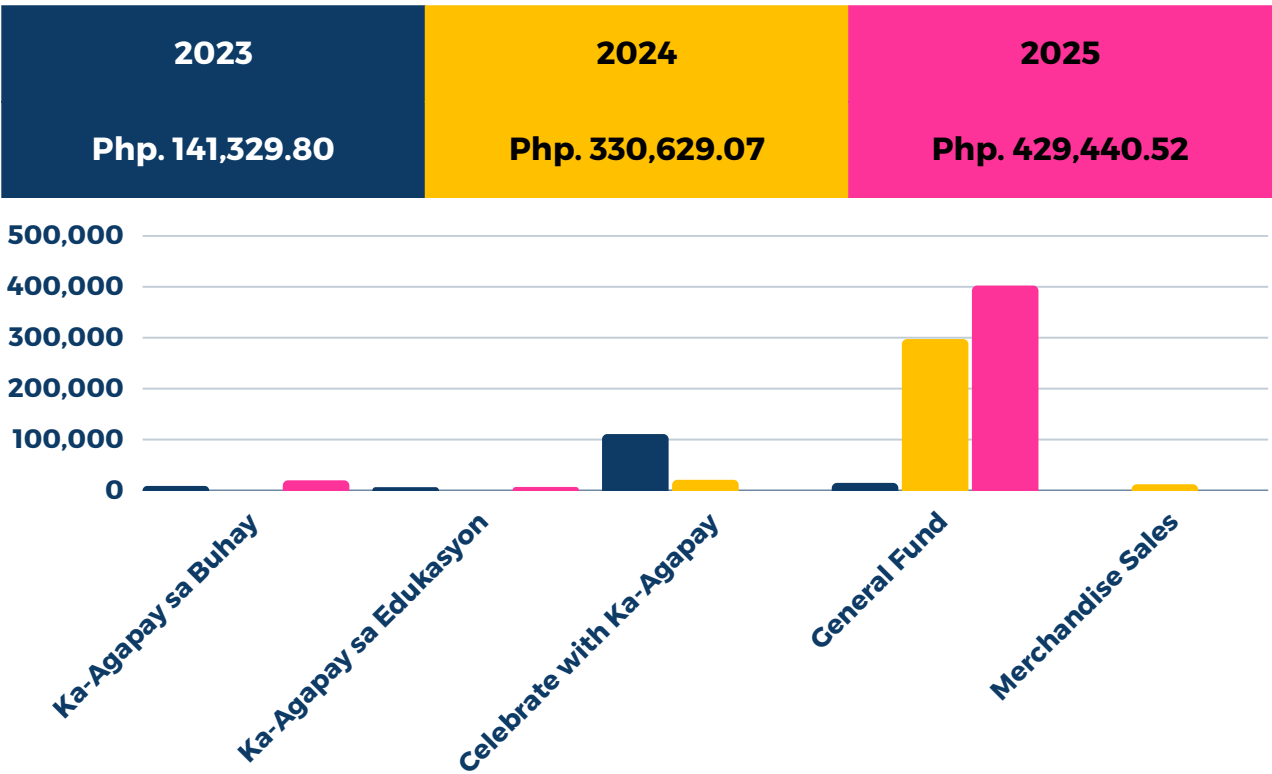

2025 PROGRESS REPORT

FINANCIAL REPORT

In 2025, Ka-Agapay sustained its corporate partnership with London Stock Exchange Group (LSEG), which continued to underpin overall fundraising performance. Together with support from Blackbaud Giving Fund and individual donors, total contributions grew by 30% Y-o-Y. This growth was driven largely by a significant increase in General Fund contributions, allowing for more flexibility in resource allocation and strategic focus on core programs.

Expenditures remained closely aligned with total contributions, reflecting strong financial discipline. In 2025, funds were concentrated on core mission programs, with notable increases in Ka-Agapay sa Edukasyon and the addition of Other Programs, while administrative and operational costs remained low.
